AMP-Ohio Internal Call

February 25, 2008

On the Call: Brad Biggs, Fred Deel, Lou Gentile, KGibson, Jen Lynch APara, Mark Shanahan,
Absent: Christi Mash

Water

Water to the site and wastewater issues – federal dollars are available but AMP doesn't want to deal with EIS required by accepting federal funds. Would AMP like third party to develop water on site?? AMP – okay with that if county owns it.

Water-pollution control loan program – low interest loan to county to build and operate – AMP pay for service which would pay back bonds

FUNDING SOURCES:

Perhaps GOA could assist with funding in this.

Roads

State can help on township roads – as one approached the facility, roads needing re-engineering for weight. Not enough points in TRAC process for economic development to raise this to a high level for ODOT.

FUNDING SOURCES:

OPWC, Locals, ODOT, ODOD (629 – access to site)

Workforce

ALEX PLEASE PROVIDE

Job Ready Sites

Will likely meet discretionary side for funding. AMP has submitted their JRS pre-application.

Mark S. please find out – **how much discretionary dollars for JRS available???**

How much money from Rapid Outreach available? Employee based program.

STRATEGY A:

Biggs understanding that AMP-will accept \$2-3 million grant from the state to show acceptance of this facility.

How much money from Rapid Outreach available? Employee based program.

STRATEGY B:

Long-Term Approach

Some JRS discretionary dollars \$????

629 Funds \$???

Workforce \$???

Coal Development Office Grant – Possible but would only be in place after they begin operation and for research.

POLICY QUESTIONS:

- How much cash is the right amount given other needs and demands in this important area of advanced energy?
- Long-Term multiyear Support Strategy vs. Short Term Cash
- Demonstration of support for concept of Clean Coal – how far to go with this facility/
- How to deal with Organized opposition to this type of facility and the timing of any announcement of support.

NEXT STEPS

- One pager on the options to share with John Haseley and Barbash in Advance for productive Decision Session in March.
