

AmpOH

Thanks Mark. I appreciate your involvement on this as well. This has not been an easy one due to their structuring as you know. I believe they do understand that. I had a brief discussion with Jolene this morning until we were cut off...she did however indicate that they were still reviewing the package put forth by ODOD and their plan was to be back in touch by weeks end. I'm assuming that means by tomorrow???

She also thanked me for all of my involvement and said she also thought the overall meeting went well.

I will keep you in the loop should I hear more on this in the next day or two. Many thanks to everyone who has also put a lot of time and effort, blood, sweat and tears into this thing.

All best,...Christi

Subject:

Fyi, our meeting with AmpOh was smooth and cordial. They expressed their appreciation for our (and your) efforts on this project.

They agreed to provide a response at some point to our ideas, but did not indicate a timeline for a response.

From another source, we heard that they felt we had actually out more on the table than they originally thought we would.

I will keep you up to date on anything else we hear.

Thanks for your work on this.

Mark
