Subject: Racine, Meigs County Meeting

The Village of Racine is working to prepare a state highway through the village to accommodate traffic from the new mine, boat ramp and power plant. Mayor Hill has requested assistance in working with ODOT to provide an acceptable design and cost estimate for widening a narrow turn which is now a bottle neck for truck traffic. Mayor Hill has been discussing the need for a traffic study and the design with ODOT since early spring.

Would you be available for a meeting in Racine to discuss this matter with Racine, Meigs County Commissioners, and ODOT? If yes, please advise possible dates for a meeting.
