Marc S. Gerken PE, President, CEO
American Municipal Power - Ohio
2600 Airport Drive
Columbus, Ohio 43219

Dear Mr. Gerken:

I am writing on behalf of the 80,000 dues-paying members of Ohio Citizen Action, thousands of whom live in municipal power communities.

We have learned that AMP-Ohio has a new study by R.W. Beck, projecting another half-billion dollar increase in the construction cost of the proposed AMP Generating Station.

Clearly, public officials and ratepayers in AMP-Ohio member communities need the most up-to-date information available. Before February 29, they must decide whether to bind themselves to a 50-year investment contract in this proposed plant. The current projected cost is a vital piece of information.

Since you have not publicly released this study, local public officials and ratepayers have no way of knowing what other information it contains that might bear on their decision.

Accordingly, we call on you to release this report today, and clear the air about what it contains, and why you have not released it up to now.

If you have any questions, please feel free to call me at (216) 861-5200.

Sincerely,

Sandy Buchanan
Executive Director
