July 26, 2007

Dear, Mr. David Mason Jr.

I am writing this letter on behalf of myself and the Bethel Temple Church. I have lived in the Southfield community for most of my life and have Pastored the Bethel Temple Church in this community for twenty-four years. I have seen this community in the days when it was thriving and in the times of devastation through the deceasing of many in the community. I know Georgia-Pacific and the Southfield community have been at odds for many years, and I believe it is time to move forward into our future. I realize to move forward there is still an issue we have to address and that is the bio-pond.

I am not writing this letter to point fingers at anyone, but to ask that you help this community to move forward from its wounded and painful stage to its healing, so we can all move forward and establish a future for our succeeding generations in this Southfield community.

I will close with this thought. There was a stripped and wounded person on the side of the road left half dead. Everyone that you thought would reach and help, pass him by, but there was one that you lease expected to help. He did what he didn't have to do, but he moved with Love. He moved beyond the law of his requirement and moved into a greater law and that is the law of Love. We know Georgia-Pacific meets the law of requirement for the Bio-pond, but will you show the Southfield community the law of Love, so we can be healed.

As Jesus said who was neighbor to the man. All I am asking, would you be a good neighbor to the Southfield community, because we want to be a good neighbor to you, for this is the way God desires for all of us to live our life.

Thank you for taking time in reading this letter. Looking forward to a great future.

Sincerely,
Pastor Dane D. Clark
