Mr. Terry Fedor, Plant Manager
Mittal Steel
3060 Eggers Rd., Cleveland, OH 44105

To Whom It May Concern:

I am writing on behalf of numerous residents with concerns on the environmental performance of Mittal Steel in Cleveland, Ohio. Several Broadview Heights residents, through the Ohio Citizen Action group, have raised concerns regarding the level of pollutants and pollution reduction technology being used at the facility. As an elected official, I have a responsibility to follow up with the concerns of my constituents.

To better answer these concerns, I would appreciate a response to the following questions

1. What commitments have been made to reduce pollution, including upgrading pollution prevention equipment technology, in the past year?
2. Have there been any Notice of Violations or fines issued to Mittal Steel by Ohio EPA in the past year due to deviations from air permits?

Thank you in advance for your time and consideration to this request. Any additional information regarding Mittal's environmental performance would be appreciated.

Sincerely,

Jennifer Mahnic
